

Prowler Elite 4.5

Designed to accept the fish finder ready kit

At 4.5m this kayak has the speed and performance for the big offshore trips, but also works incredibly well for inshore fishing. The extra speed and larger volume of this kayak enables it to carry substantial loads while still bucking tide, wind and chop. Extensive use of the 100% waterproof 'insert' attachment system for saddles and other fittings.

Specifications:

- Length: 4.5m
- Width: 71cm
- Weight: 30.4kg*
- Capacity: 230kg
